Mainstreaming Climate Resilience into Development Planning

(TA 8179)

OUTCOME

Sustained institutional and technical capacity to integrate adaptation concerns into development planning

OUTPUT

- SPCR coordination, technical support, and capacity to mainstream climate resilience into development planning strengthened
- Detailed feasibility studies conducted for selected adaptation projects
- Civil society support mechanism established, and nongovernment organizations (NGOs) and civil society organizations (CSOs) given increased capacity to mainstream climate change adaptation (CCA) and disaster risk reduction (DRR) into their operations
- Adaptation knowledge products developed and disseminated

ADAPTATION ACTIVITIES

- Organization of regular coordination meetings to improve mainstreaming of climate change into development planning (at national and subnational levels)
- Development of data support infrastructure for climate change risk management
- Application of risk screening tools; vulnerability assessment of key projects; and incorporation of climate

risk management in sector guidelines, manuals, and infrastructure design standards

- Preparation of adaptation plans at the commune and district levels, and integration of these plans into commune development plans
- Demonstration of innovative schemes for financing improvements in climate resilience at the subnational level
- Revision of master plan for gender and climate change
- Conduct of feasibility studies for adaptation projects in key sectors
- Identification of indicators for monitoring the effectiveness of adaptation
- Identification of projects that would strengthen the climate resilience of vulnerable groups, including women
- Enhancement of NGO and CSO capacity to mainstream adaptation and DRR into their operations
- Establishment of a knowledge management information system for gathering, storing, and producing adaptation knowledge products
- Conduct of campaigns to raise public awareness of adaptation
- Updating of educational curriculum through the integration of adaptation concerns
- Implementation of gender-responsive and gender-equitable adaptation pilot projects

PROJECT AT A GLANCE

Executing agency

Ministry of Environment

Implementing agencies

- Ministry of Agriculture, Forestry and Fisheries
- Ministry of Water Resources and Meteorology
- Ministry of Public Works and Transport
- Ministry of Rural Development
- Ministry of Planning
- Ministry of Interior–National Committee for Sub-National Democratic Development Secretariat
- Ministry of Women’s Affairs

Collaborating agencies

- Ministry of Education, Youth and Sport
- Ministry of Health
- National Council for Sustainable Development
- National Committee for Disaster Management Council for the Development of Cambodia

Budget

\$11.0 million (PPCR, \$10.0 million grant; Nordic Development Fund, \$1.0 million)

Target provinces

All 25 provinces, including cities, districts and communes in Cambodia

Resilience instruments to be developed and tested

- Vulnerability assessment and risk screening tools
- Adaptation guidelines and manuals
- CCA and DRR educational curricula
- Adaptation grants for community-based organizations and NGOs
- Feasibility studies on adaptation
- Adaptation proposals for financing from global climate funds
- Gender-responsive and gender-equitable adaptation pilot projects
- Adaptation indicators integrated into the National Strategic Development Plan and into subnational and key sector development plans
- Financial modalities and mechanisms for climate resilience

Table continued

Total beneficiaries (no. of women and girls)

350,000 (179,900)

Project approval date

1 October 2012
15 January 2016 (additional financing)

Project completion date

31 December 2019
